COMMERCIAL.

TOMAS EYRE, May 1.
WEATHER BARRIER.—The weather during the past week has been generally favorable; but, but the whole, highly beneficial to the growing crops. Our advices from all parts of the State are favorable. Winter Wheat, in many parts of Southern Ill., is about ready for harvesting. The grain crop, we are told, may expect to be good; the corn crop, according to H. C. Livingston & Co. exhibited this morning, on "Change," a bunch of white Winter Wheat, was three inches high, a foot in a field in Union County. The oats are about four inches high, taken from a field in the same neighborhood. These fields will be ready for cutting in a few days. The spring crops are also progressing favorably. A great portion of corn has been planted, if there are no drawbacks, there will be a great yield.

The following tables show the imports and exports of leading articles of commerce by Lake Erie, during the past week, since January 1st, and up to the same date last year:

THE PIKE'S PEAK DELUSION.

The Pike's Peak bubble has exploded. The tenor of our despatches from the frontier leave no doubt on that point. The thousands of men who have been deluded by the glitter of the sudden wealth to be had in the eastern slope of the Rocky Mountains, and who have sold their fruits clutched up with a wary hand, and filled with rage against the Sioux by whom they have been cheated. The gold-visionaries by which they were buoyed up on their feet are all chased away by the experience of months; and the vast number of them who have been deluded by the pretensions of the Oranges, found their fresh for the great rebellion in India and the terrors in China; and now that these have terminated uneventfully to her policy, she is ready for any emergency, with more guns and more money than both the Powers who are thought to be conspiring against her. Hence there is no probable combination which can call the importance of the United States into question.

There is no doubt that every Catholic priest and newspaper outside of those under the control or censorship of the governments that we have named, will oppose her policy. The Pope, Vienna, the Austrian Emperor, is a leader in the cause of the Sioux. Even the Presidents in the different cities of the West, or states what the crop prospects were in their immediate vicinity, and we are indebted to H. F. Carter, Captain, for the following extracts from the received to-day:

not be satisfied until the slaves are

scarcely recognized here at first."
